

Explore Holes

Think About Holes:

1. Which holes are human-made and which are found in nature?
2. How was each hole made? If you don't know, take a guess...
3. Why is it there? Does it serve a purpose?
4. Can you think of anything else that serves a similar purpose?
5. Where else have you seen with a hole used for same reasons?

Extensions:

1. Go on a hole hunt. What other holes can you find? Make a list.
2. Write a pretend story about the hole in the tree. Draw pictures.
3. Make up a new game that uses at least one hole.
